A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head ache—and ought to be taken by all persons on a change of climate.

In sickly times or places, a dose should be taken every fortnight, and if there is reason to apprehend personal danger, it may be taken once a week.

SOUTH AMERICAN AFFAIRS.

From the Baltimore Patriot—May 3.

Capture of Chili.....Last evening arrived at this port, the schooner patriot, captain Thompson, in 50 days from Buenos Ayres. By this arrival, we have received from our atttentive correspondent at that place, Buenos Ayres Gazettes to the 2d of March, containing the official account of the capture of Chili, by the republican forces, and other particulars relative to the progress of the patriotic armies.

Buenos Ayres Gazette extraordinary, February 27.

Yesterday at 3 P. M. Don Manuel Escalada arrived in this capital, bringing the royal standard which was captured at Chacabuco. It was presented to his excellency the Supreme Director, in the presence of many civil and military officers. At 6 it was deposited in the Citadel, serving as a trophy to the national colors. Salutes were fired on the occasion, accompanied with military music and the joyful acclamations of an immense concourse of people. The public gratitude rendered the homage of its admiration to the meritorious province of Cuyo, and to the illustrious heroes of the Andes. To them belongs immortal glory! SAN MARTIN. Fame will publish the encomium of your virtues: perhaps it may seem to exaggerate them, yet it can never cause them to be sufficiently appreciated.

Despatch from gen. San Martin to the Supreme Director.

Most excellent sir ...A division of 1800 men of the army of Chili has just been destroyed in the plains of Chacabuco this afternoon, Feb. 12, by the army under my command. 600 prisoners. including 30 officers, 450 killed, and a standard which I have the honor to transmit to you, are the results of this happy day, with more than 1000 stands of arms, and two field pieces.

The pressure of time does not allow of my entering into details, which I will give you as soon as possible; in the mean while I cannot find expressions strong enough to do justice to the bravery of the troops, our loss does not amount to one hundred men. Brigadier-generals Don Miguel Soler, and Don Bernardo O'Higgins eminently distinguished themselves.

Head Quarters, Chacabuco, 12 Feb. 1817
JOSE DE SAN MARTIN..

To his excellency the
Supreme Director of the State.

Gen. San Martin to the Supreme Director.

Most Excellent Sir—The glorious day of Chacabuco has restored to Chili the enjoyment of its liberty. The remainder of the enemy's army dispersed, are either joining ours in great numbers or falling into our hands as prisoners. The fugitive ex-governor *Marcon*, not finding any vessels at Valparaiso, is endeavouring to escape to the South, but he will be captured by the parties that are in pursuit of him. To day our army made its entrance into this capital amidst the acclamations of the people; we have found in it an immense park of artillery.

JOSE DE SAN MARTIN.
February 10, 1817,

Beunos Ayres, March 1st.

CHILI—On the 6th of February the freemen of the capital of *Chili* assembled to choose a government, and elected Brigadier Gen *Don Bernardo O'Higgins*, with the title of Supreme Director. He has announced to the Supreme Director of these Provinces his appointment, and the apprehension of his predecessor.

MARCH 5th, 1817.

"We have further accounts. General MARCON, the royal Governor of Chili; with his suite, have been taken at Valparaiso, on the point of embarking, with *two millions of Dollars!* The Patriots have possession of *every port on the coast of Chili!*

That there will be a war with the Portuguese, I have no doubt. This government in retaliation of some acts of the Portuguese, at Montevideo, has imprisoned all the Portuguese merchants and others at this place."

LATEST FROM ENGLAND.

The ship Galen, Captain Tracy, has arrived at Boston from London, via Plymouth. The Galen has brought London dates three days later than those received by the Pacific.

The papers contain accounts of a dreadful inundation in the north of Germany about the 4th March.

Mr. Brougham stated in parliament, March 27, that there were 370,000 persons in great misery in and near Birmingham, but they evinced no disposition for disorder.

Some disturbances, which the military quelled, have taken place in French Flanders, from the scarcity of provisions.

Spain is said to have applied to England for assistance against her revolted subjects, and has been refused.

LONDON, March 28.—A violent tempest broke over Strehlen, in Silesia, on the 7th inst. The storm tore down mills and buildings, the lightning twice struck the Senate House, and set it on fire; to save it was impossible; the tower, one of the highest in Silesia, was burnt, with the clock and bells; the other part of the Senate House also caught on fire and was partly destroyed.

A private letter from Constantinople gives an account of an earthquake, which has recently done much damage at Jerusalem. A Greek and an Arminian church were overthrown, and that of St. Sepulchre's has been also severely injured.—The writer of this intelligence, takes the opportunity of adding, that the number of Catholics in the dominions of the Grand Seignior, is much greater than is generally supposed. In one small province, he says there are more than 120,000; and in Constantinople, there are at least 80,000.

LONDON, March 18.

Cobbett chastised—In one instance, at least, this hectoring bully has met with his deserts.—Understanding that he passed the night of Sunday at Mr. Timothy Brown's, at Peckham, Mr. Lockhart repaired thither early yesterday morning, with the intention of chastising the reformer for his insolence at Winchester. Before Mr. L. had reached the Bricklayers' Arms, he met Cobbett returning to town, and, being furnished with a tremendous horse-whip, he applied it *sansceremonie*, to the broad and well adapted shoulders of his antagonist. Cobbett escaped into the shop of Mr. Jones, the apothecary, where he remained for two hours. His sconce appears to have suffered considerable damage, as he was seen to leave the apothecary's shop with an enormous plaster over his left eye.

The Charleston Patriot, of April 23, contains an article extracted from a letter from Bushire, a seaport town of Asiatic Turkey, province of Arabia, which gives an account of an insurrection in Arabia, in which a fortress was bravely defended against the rebels for six weeks, by a garrison chiefly composed of females. The Shiek of Muscat had set out on an expedition against the Joasme pirates and the districts of Bahare The Ottoman forces have been generally successful throughout the Arabian Peninsula, and Abdallah Ben Saoud, chief of the Wahabee Arabs, has consented to pay a yearly tribute to the Governor of Egypt. The Ottoman General, it is said, immediately consented to these terms. Titiameh and Hajah have been added to the dominions of the Porte. Mecca and Medina, the cities of the Prophet, are situated in the latter province.—The Grand Seignior seems daily to be extending his empire.

An extract of a letter from a gentleman in St. Petersburg to his friends in New York.

"You will naturally expect, that I should say something of Mr. Pinckney—His arrival in this place was hailed with joy by the Americans, who are here. It is highly gratifying to see our country represented by a gentleman of courtly manners, and splendid talents;—We have now a rallying point, some person to look to for protection. Our government should always have a person at the Court of St. Petersburg to represent the people of the United States who enjoyed political importance at home; one who is free from selfish and sordid motives, and who from occupying an elevated situation in the esteem and love of his countrymen, finds his greatest happiness in the promotion of their interest. Such was the character of our late minister, his excellency John Q. Adams, and such we trust and believe will be that of Mr. P."

The numerous attendance of country friends at the present yearly meeting, and the expectation of hearing some discourses of their ablest preachers, induced a stranger to their society to visit one of their places of worship on Sunday last, the meeting was literally crowded to overflowing, and after some silence, during which my own meditation was engaged, one of their members, Mr. Jesse Kersey, addressed the audience—his discourse rivetted the attention and must have delighted all—the mildness of his manner, the clearness of his view, the arrangement of his subject, and above all the christian principles which he inculcated, it is boldly asserted, have never been surpassed, though they may have been equalled, in excellence. The observations which he *particularly* applied to the younger branches of the society, were elegant and persuasive. To the male part he portrayed their duties as members of the society in particular, and of the community in general in the most vivid colors. To the female part, his language was that of an affectionate parent.

It appears that the preacher is a self-taught man, that with a limited education, and with a desire of enlarging his knowledge he applied himself closely to study.

He is, among others a living example of what man is able to attain, if he only sets to work in EARNEST.

Aurora.

Lieut. General LALLEMAND, late of the French Imperial army, has arrived here from *Turkey*, and has taken lodgings at the Exchange Coffee House. He was an officer of cavalry, and his name has been conspicuous in the war annals of *France*. In the last French Imperial Court Calendar he had the title of Baron. He accompanied Bonaparte, from Paris to Rochefort after the battle of Waterloo; and with him surrendered himself to the British ship *Northumberland*. He was afterwards refused permission to proceed with Bonaparte to *St. Helena*, and, with Marshal Savary, was sent to Malta in the Eurotas frigate. From Malta he escaped to Smyrna; and thence has safely arrived here. He has a younger brother; who was also one of Napoleon's Lieutenant-Generals. Both of them were excluded from the amnesty decreed in *France*, by the decree of *Louis* 18th of the 4th of July, 1816.

PITTSBURGH.

TUESDAY, MAY 13, 1817.

The late news from Buenos Ayres give flattering prospects as to the final success of the revolutionists in South America—Chili is a large and important province, bordering on the Pacific ocean; it is said to be 900 miles long, but of contracted breadth, being hemmed in on the land side by the Andes, the highest mountains in the world—Besides mines of various kinds, and the natural fertility of the soil it is capable of producing all the fruits and grains of Europe—St. Jago is the capital, containing one cathedral, three churches, eight monasteries, and 30,000 inhabitants —Long. 74, 45 W. lat. 30, 10 S.

The Legislature of New-York have passed an act relative to the running of stages, by which the owners of any stage coach, waggon, or sleigh, are forbidden to employ as drivers persons who are addicted to drunkenness, or the use of ardent spirits, under the penalty of one hundred dollars for every month, to be recovered by an action of debt, which it is made the duty of the District Attorney to bring, on complaint being made. A penalty of five dollars is imposed on the driver of any stage who shall run his horses, to pass another stage, or to prevent being passed by one. The owners of the stages are forbidden to take more than seven cents per mile for the fare of each passenger.

A law has passed the Legislature of New-York, authorising the incorporated banks of that State to take at the rate of seven per cent. per annum interest on loans made for a longer period than 60 days.

There has arisen a violent feud among the patent Republicans of the City of N. York, ostensibly as to their Assembly Ticket, but evidently growing out of the difference of opinion as to the candidate for Governor. How the difference is to be composed it is difficult to say, when it has arisen to such a height that, at a general meeting on the 27th ultimo, according to the National Advocate, the meeting was but one scene of confusion from beginning to end. A dozen of different chairmen were appointed, and as often expelled from the chair—no proceedings could be had—no speaker could be heard, and finally, about eleven o'clock the Mayor had to interfere, and *disperse the meeting*.—"Of a surety, (as Dominie Sampson would say) this is truly pro-di-gi-ous."

Anthony Morris, Esq. has arrived at Boston in the ship Herome from Leghorn, after an absence of four years. Mr. Morris was formerly president of the senate of Pennsylvania, and a lawyer of eminence. He sailed from Newport, as was supposed for Madrid by way of Cadiz, and on some secret service for the government; conjecture said respecting the Floridas. What success he has met with we know not.

Our last dates from New Orleans per mail received on Monday last, are to the 12th April, which however furnish neither political nor commercial information of more than ordinary account. One fact is mysteriously mentioned in the Louisiana Gazette, that on the Thursday afternoon preceding the 12th of April, one of the most respectable merchants of that town, while walking peaceably along the streets, was assaulted and stabbed; and the perpetrators of the deed suffered to go unpunished!

"This is another proof (says the L. Gazette) that the wisest & best of our institutions may be so perverted, as, in its consequences, to be most destructive to the general welfare—we allude to the trial by jury: for, in many instances, juries in *this place*, have unavoidably been made up of men so destitute of all idea of justice, so ignorant of the nature of their obligations to society, and so regardless of an oath, as, by refusing to find a bill of indictment, though supported by the strongest evidence, to let pass unpunished the most lawless and criminal."

Surely, this small paragraph presents a picture of moral depravity in the community of New Orleans, such as we could not suppose to have existed in any part of the United States. *Cin. Gaz.*

Savannah April 22.

We have accounts from the Southward to the 15th inst. which state that the frontier has been for some time past in a constant state of alarm, from the hostile appearance of the Indians, (supposed to be the lower Creeks, or Flint river Indians) who, it is believed, have established a town on the Okafonoka, near the head of St. Mary's river; and, are in the habit of visiting our frontier settlements, and often driving off large droves of cattle, and sometimes horses. The hostilities evinced by the Indians, are attributed to the notorious Woodbine, who it seems has again made his appearance amongst the deluded savages. A gentleman of respectability, near St. John's East Florida, writes to his friend in St. Mary's, as follows:—"I hope something will be done effectually with the Indians, who are instigated by Woodbine, now resident at the mouth of Sewanee, where there is a fort and block house." It is generally believed that Woodbine has been endeavouring for a considerable time past, to inveigle——to depart with him for the Island of Cuba, where he tells them they will be free. We hope government will pay some attention to the exposed situation of our frontier brethern; and send a force for their protection.

Extract of a letter from an officer in the U. S. army to the editors, dated,
Fort Hawkins, April 5, 1817.

"I shall leave this in a few days, for the lower Creeks, with a force to remove the settlers off the Indian lands, east of the Chatahoochie river. It is a difficult and disagreeable duty, as we may fall in with some of the hostile chiefs. In that case we must do the best we can.

Col. *James Pindall*, a distinguished Federalist, is elected from this district, without opposition, to the next congress of the U. S. Perhaps a case of the kind has never occurred in the political history of Virginia, that a federalist should be elected without opposition from a district that has heretofore been represented by a Republican. *Morgantown Spec.*

The New Orleans Gazette of the 17th March, states, that at the last session of the Legislature of Louisiana, an act was passed incorporating a company called "The Atlantic Steam Coasting Company," with the exclusive privilege of entering the Mississippi from the sea with vessels impelled by the force of fire and steam for the space of 20 years. It is understood the object of this company is to establish a steam ship between New Orleans and New York.

European Advices.

The spirit of Opposition in England—lately so loud and daring—appeared to have been completely suppressed by the late strong measures of the Parliament and Executive authority.—The leaders had become silent or equivocal, and some of them were quitting the kingdom for the American continent.

Though acknowledged restraints were laid on the freedom of speech and the press, the administration appeared to be increasing in popularity, which would be strengthened by the numerous retrenchments of expenses, and sacrifices of office holders, begun and contemplated.

Of every other part of Europe, we can repeat the summary—Every thing was pacific, and all apparently contented.

The Pope has restored the independence of the little Republic of St. Marino. [This petit republic is celebrated in Mr. ADAMS' Defence of the American Constitutions.—Its independence, which had escaped all other tyrants, fell a sacrifice to Buonaparte.]

Lord Byron, after spending some time at Venice, relinquished his design of going to the east, and at the last accounts was in Switzerland, on his return to England.

All British officers who held commissions in the Portuguese army, and are on leave of absence in England, have received peremptory orders to join their regiments. The cause is said to be, that Lord Beresford had left Lisbon, and had proceeded to the Spanish frontier in consequence of discussions with the Court of Madrid which had taken an unfavourable turn, and the ultimate issue of which was doubtful.

Stray Cow.

CAME to my enclosure, in the North-east part of the city, about two weeks since, a BLACK COW, with a piece cut out of her right ear; she had a calf on Monday last. The owner is desired to come and take her away.

Cure for Coughs and Colds.

HAMILTONS' ELIXIR,

A SOVEREIGN remedy for colds, obstinate coughs, astmahs, sore throats, and approaching consumptions, and most disorders of the breast and lungs.

A SINGLE TRIAL

Will prove, that it restores the determination of the fluids to the surface of the body, and brings on the common healthful perspiration; that it dislodges and evacuates the tough viscid phlegm or mucus, strengthens the weakened vessels of the lungs, sheathes the acrimonious humor which irritates them, and finally discharges it Thus striking at the root of the disorder, the symptoms are of course, effectually and permanently conquered; the reverse of common medicines, which weaken the constitution and gives strength to the disorder, for the sake of moderating for the present, some of its painful effects

To parents who have children afflicted with the WHOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is so perfectly agreeable, and the dose so small, that no difficulty arises in taking it.

TO H. LEE.

Being desirous to make public, for the good of others, the excellent quality of HAMILTONS' ELIXIR, prepared by the late Mr. Lee, I have sent you the following account of the benefit I have received from it, which I hope will induce others to give it a trial In consequence of a bruise on the breast, received from a fall, my health grew bad, my breathing became very difficult, and frequently I have had to rise up in my bed, with all the horrors of immediate suffocation. Add to these a constant pain on my breast, and a cough, a great loss of strength and flesh, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, but without giving me any relief. Another physician who knew me and the circumstances of my case, *advised me to give Hamiltons' Elixir a trial*, saying, *he had used it in his practice, and always found it do much good. A bottle was procured, and I found relief before I had taken half of it.* I continued to use it, and was soon strong enough to attend to business. On taking cold, some of my former symptoms return, but are always removed by a dose or two of the Elixir.

The Genuine Japan Varnish,

FOR BOOTS, SHOES, &c.

J. BYRNE,

Respectfully informs his friends and the public, that he has commenced the manufacture of the real JAPAN VARNISH *for boots, shoes, carriage harnessing, ladies morroco shoes, &c.*

This inestimable composition unrivalled for its superior excellence, as well as being beneficial to the leather, produces the most beautiful and shining jet black ever beheld.

Its qualities have perhaps never before been concentrated in any other composition. It acts as an emolient, rendering the leather soft, pliant and durable—Is not subject to turn foetid as other compounds do—Is suitable to all climates and seasons—When polished, will not soil the whitest linen, and the cost of purchase is four fold repaid in the durability imparted to the leather by the lubricating quality of the Varnish.

Gentlemen sensible of the good effects of personal appearance will give this a decided preference to any thing ever before offered to the public.

The Japan Varnish is put up in Jars at 50 cents each, with proper directions for using, with the makers name affixed in his own chirograph to the label on each jar, and sealed on the cork with wax impressed with the initials J. B.

Sold at Byrne's Umbrella manufactory, Fourth street—Pittsburgh—where all orders will be gratefully received and punctually executed and a liberal allowance given to retailers.

Patent Trace Chain.

THE subscriber has invented and obtained a patent for cutting and bending links to make chain of different sizes.

Chain made of those links will have a superior advantage over the chain made in the common way as the iron is first drawn into a wire which makes each link of an equal thickness and more beautiful and strong than the common chain.

To the wholesale merchant they will be sold at 21 doll. per dozen. The links will likewise be sold to blacksmiths or others at 25 dolls per hundred pounds with the necessary complement of rings, each chain requires six pound of links.

Orders accompanied with the cash will be promptly attended to by the subscriber at his works adjoining Pittsburgh.
